Subject: Stamford Urban Transitway Phase II  
Stamford, CT

(v) 860.566.3005  
(f) 860.566.5078

Dear Mr. Pasquareillo:

The State Historic Preservation Office has reviewed the *Cultural Resource Survey for the Proposed Stamford Urban Transitway Phase II Project, Stamford, Connecticut*, prepared by TRC Environmental Corporation concerning above-named project. In particular, this office notes that 178 Myrtle Avenue/402 Elm Street and 921-923 East Main Street lack historical significance and architectural distinction and are not eligible for the National Register of Historic Places. Therefore, this office expects that the proposed project will have no effect on Connecticut's historic, architectural, and archaeological resources.

This office appreciates the opportunity to have reviewed and commented upon the proposed project.

This comment is provided in accordance with the National Historic Preservation Act and the Connecticut Environmental Policy Act.

For further information please contact Dr. David A. Poirier, Staff Archaeologist.

Sincerely,

J. Paul Loether  
Division Director and Deputy  
State Historic Preservation Officer
